

I benefit from listening to XM and its traffic and weather channels without listening to aggressive publicity all the time. I pay for it and should not be dictated by the National Association of Broadcasters what I am permitted to hear, just because these fat cats want more. I respectfully urge the FCC to reject the NAB's petition 04-160 and let XM provide the kind of programming that I demand and deserve.

Thank you for your unbiased attention to my normal request

Gaetan Roy
